ONTARIO IAO MEETING

Friday May 17th, 2024

Dr. Mike Lowry, DDS, Instructor in Western Canada and Toronto, Diplomate, International Board of Orthodontic

I have been in practice for over 36 years and have been involved in orthodontics since taking my first course with Dr. Rondeau in 1987. Over the time since then, I have studied with Rondeau Seminars, United States Dental Institute, various instructors teaching TMD and facial pain, a facial beauty institute, and the IAO instructors institute. I currently hold the designation of Master Senior Instructor with the IAO. I have served as president of the IAO and was on the executive committee for 5 years. I am currently retired from private practice but my practice consisted of roughly 30 % orthodontics and I treated all phases of orthodontics including orthopedics, TMD, and sleep. I have achieved the level of Diplomate and have served as chair of the International Board of Orthodontics and am still a member. As such I am involved in the IAO tier advancement program and am serving as an examiner for students involved in undertaking that process. I am also a reviewer for the peer review program for IAO journal articles awaiting submission. Until recently, I assisted Dr. Rondeau with the level 1 courses in Vancouver, Calgary and Edmonton and other locations as needed. I am the mentor for 2 study clubs in Alberta, one in Vancouver and one in Saskatchewan.

Short Hands On Component on Wire Bending

There will be a short “hands on” course on wire bending for final detailing orthodontic cases. Participants are encouraged to bring a pair of bird beak pliers with a stone model for this section of Dr Lowry’s lecture.

Section That Links AI and Cephalometric Analysis

Also in Dr Lowry’s lecture will include a section that links AI and cephalometric analysis.

We Proudly Present our Meeting Sponsors

IAO Ontario Section would like to extend a special thank you to our sponsors.

Thank you!
TO OUR SPONSORS
